The [REDACTED] Project [REDACTED] was a Covert Action operation in Santiago Chile which supported the Christian Democratic Party (PDC). It was closely coordinated with the Department of State, through the American Ambassador in Chile, and all funds were authorized by the Forty Committee.

This file folder is an extension of the Plans Folder and was prepared by selecting key documents from the numerous operations folders at the time of the final review of the retired [REDACTED] files. These documents show the background and progress of the operation through the time of opposition to the Allende Government and the successful coup d'etat against Allende. The documents show that the PDC was in legal opposition to the Allende Government, but that it, and this CA operation, were not involved in the coup.

The final review was made 26 October 1993. All other material has been destroyed.
